

Ground Floor Commercial Survey

The City invites you to complete a survey about how to encourage successful commercial uses in the North City and Ridgecrest Neighborhoods. Please visit this link:

<https://www.surveymonkey.com/r/QBSK8TK>

The survey takes about 15 minutes to complete. **The survey is open until May 17, 2020.**

At the March 16, 2020 City Council meeting, the Council directed staff to develop regulations around creating viable commercial spaces in new mixed-use and multifamily buildings. The Council outlined a two-phase approach where Phase 1 includes evaluating requirements for commercial uses in the North City and Ridgecrest Neighborhoods. Phase 2 amendments will include other commercial and mixed-use zones in Town Center, Shoreline Place, and the 145th and 185th Light Rail Station Subareas. The current effort by Planning & Community Development Department staff just involves Phase 1, so the survey only asks about North City and Ridgecrest.

The City has also created a project webpage where you can learn more about the Development Code amendments: shorelinewa.gov/groundfloor

We value your feedback!
