## Working Washington Grant Program Update

Many Shoreline business owners applied for the Working Washington Grant Program, either through [REACH King County](#) or through an additional extended application period on the City's website. The program is administered by the Washington State Department of Commerce.

The City has received the following update on the status of the grants:

- More than 7,000 businesses in King County applied for the grant, including about 80 Shoreline businesses.
- Funding is estimated to be sufficient for between 80-150 businesses in King County, with 2-4 businesses in Shoreline expected to receive funding.
- Commerce staff is reviewing applications and will forward them on to the Governor's office.
- Awardees will be selected at the Governor's discretion.
- REACH will be notified by Commerce in June.
- REACH will work with City of Shoreline to notify recipients.
