

● Required: A written description (up to 1 page) of your mural, how the design addresses the subject of Juneteenth, and how you will involve the high school student volunteers in creating the mural.

● Optional: Any supporting documentation, such as sketches or color palettes

Page

I propose to paint an outline of Juneteenth related images in a creative collage. The backdrop of this mural will be a multitude of colors that complement each other. See current mural as demonstration. The image references such as hands breaking chains, the words freedom, and some historic images that coincide with Juneteenth. I have created the Juneteenth designs for the past 2 years for Seattle central. I have created many murals which you can view that and other pieces of my art at [www.mcurrydesigns.com](http://www.mcurrydesigns.com). I will collaborate with the students. The student will color in the outlined designs on the mural.
