Colleen,

That is a sad punt. How will the city and council even know if it has improved on its diversity goals?

The major goals clearly did not address sex or age. Those were met.

Most people I know can recognize an Asian or Black when they see one. Clearly bureaucrats can not.

Hello Bruce--

We do not have demographic data attached to specific individuals on the Board. I have attached a recent demographic survey that provides aggregate data for the PRCS/Tree Board as a whole.

Hi Colleen,

Since increasing diversity on the new PRCS Board was established as a priority, will you give me the sex, racial, ethnic, etc. characteristics of the 4 new members?

Thanks.

Bruce
