

**2021  
Environmental  
Excellence Awards**

▸ Nominations for

# Enhance Healthy Communities

*The winning action in this strategy area have demonstrated outstanding achievement in engaging the community, improving transportation equity, maintaining and preserving transportation infrastructure, improving transportation safety and resilience, increasing use of active transportation, protecting cultural resources, reducing noise impacts, and leaving the environment better than it was before.*

# NE 145<sup>th</sup> Street Light Rail

## Northeast 145<sup>th</sup> Street Light Rail Station Area

ESO is excited to recognize the **Regional Transit Coordination Division** for their excellent coordination on the Northeast 145<sup>th</sup> Street Light Rail Station Area. This project exemplifies an outstanding five-agency collaboration between Sound Transit, the cities of Seattle and Shoreline, King County and WSDOT. Through early stakeholder coordination, community engagement and integration with adjacent local projects, this project transforms a low-density, auto-dependent area to a transit-oriented community with reduced carbon footprint and greater access opportunity for the local neighborhoods.

Thank you to all the submissions this year. We are grateful for the opportunity to learn about the amazing work going on all over the state. We hope to see your submission next year for the ESO Environmental Excellence Awards!
