Chief's Message

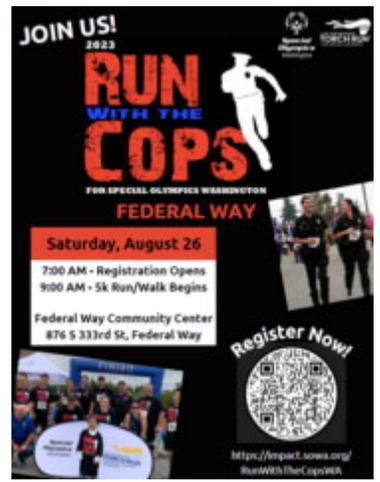

After a year and a half of delay after delay, a significant officer safety concern has been FIXED and is across the finish line thanks to Brian! As we all know the station exit creates a “spotlight” on anyone leaving... especially after dark when the lighting spots us and provides concealment in the city parking lot. One of the bigger concerns have been people hiding in the upper lot corner. I worked with Dan Johnson before his retirement to get better lighting, better cameras, and a one-way speaker to address those issues. The project had been delayed repeatedly for the needed power upgrades and supply chain issues. In his first few weeks with us, our CRU Desktop Support Specialist Brian Parsons has been able to connect and resolve all issues making us all safer!

Brian... WE APPRECIATE YOU!

On Saturday, August 26, 2023, at 9:00 a.m., the Federal Way Police Department will host the annual Run With The Cops 5k. This fundraiser for the Special Olympics of Washington attracts members of law enforcement and other first responders from the local area. Approximately 200 participants support the event annually, raising nearly \$10,000 for Special Olympics.

The run/walk route is an out-and-back from the Federal Way Community Center while utilizing the BPA Trail for safety and the hills to challenge participants. Tortoise and the Hare will provide chip timing for the first 200 participants, with timing sheets provided at the end of the event.

The link for registration is <https://impact.sowa.org/RWTC2023>, and if you have any further questions, please contact Lieutenant Bryan Klingele at: bryank@cityoffederalway.com

We have multiple community events coming up in the next short months including National Night Out (Kenmore and Shoreline), Celebrate Shoreline, CatCon 2.0, CRASE presentations, and multiple Council of Neighborhoods summer events. We look forward to the opportunities to attend and have positive engagement with those we serve.

I am happy to announce after two years of Shoreline holding at least one of our two captain vacancies, we will be welcoming Captain Tony Lockhart to our team! Cpt. Lockhart will be officially promoted this Saturday. However, due to needed pass-along in Maple Valley, he will not officially join Precinct 5 until August 5th.

Cpt. Lockhart joined KCSO in 2005. He has previously worked in the contracts of Newcastle, Metro, SeaTac and most recently Maple Valley. Many of you likely know Cpt. Lockhart from his years of work as Program Manager for CIT and his work on the CNT for KCSO. He has a passion for outreach and community partnership, which is right in line with our mission and goals for engagement. He continues working with CIT and presenting nationally on crisis interactions with LE, case law, and police culture.

Besides enjoying long walks on the beach, Cpt. Lockhart has been seen performing stand-up comedy, is the proud father of his club volleyball player daughter, and he owns and shows two of the most beautiful classic Mustangs I have ever seen (he already promised that I get to drive them whenever I want).

A Glimpse - KCSO 2023 Recruiting Ad

You're getting a glimpse at the new KCSO recruiting ad that will be appearing in the 2023 Seattle Seahawks' *Annual Yearbook*. This single image does an excellent job capturing the special advantage KCSO enjoys because our contract police partners and specialty units. Seeing our partners as the face of our agency makes this message even more meaningful.

-Captain Tim Meyer

Different Uniforms. Same Team.

Will you join us?

kingcounty.gov/depts/sheriff/careers

MCU Commendation

Nearly every week, Chief Park and I receive *internal* commendations from peers and supervisors recognizing efforts of both deputies and detectives.

We thank those of you performing this exceptional work and your colleagues & sergeants who recognize and report it. This is just one quality that makes Shoreline the special precinct it is.

—

On 07/13/2023 at 2239 hrs Deputy Swanson and Deputy Glavin were responding to an unrelated radio call when they saw an assault in progress on the S/E side of the Keybank building located at 17500 Aurora Ave N. Deputy Swanson and Deputy Glavin took quick action to separate the suspect from the victim and place him in custody. The victim was bleeding extensively from his face and head and had a suspected broken orbital and jaw. Deputy Glavin summoned aid who arrived shortly after and transported the victim to Harborview. The suspect was booked into KCJ for felony assault.

If it wasn't for the quick action of both Deputy Swanson and Deputy Glavin the suspect would have most likely inflicted more injuries on the victim than he already did.

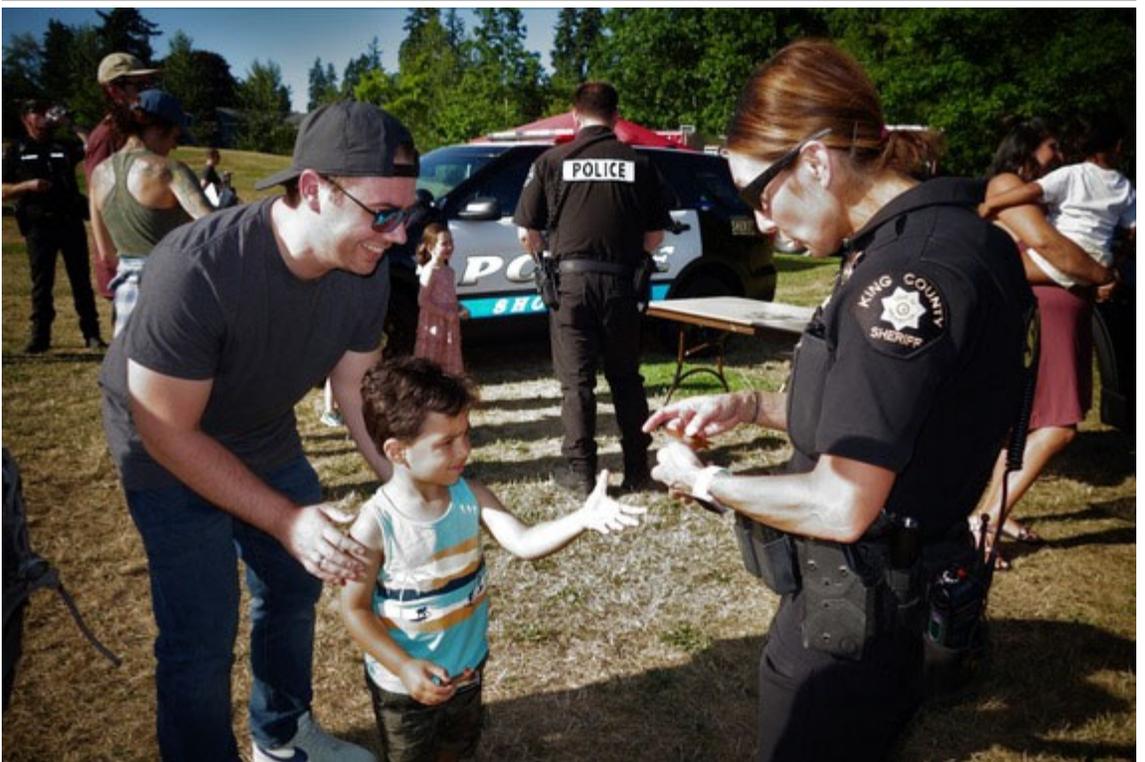

-Sgt. Deer

—

(Moments ago, I confirmed the suspect remains in KCJ on \$150,000 bail.)

Captain Tim Meyer

Wednesday's Swingin' Summer Eve

Shoreline community members were in for a special treat at Wednesday's Swingin' Summer Eve festival at Cromwell Park. Not only did it feature live music, food trucks and other activities, but demonstrations of our high-tech equipment as well. We appreciate Detective Brady for bringing a Zero Bike and Deputy Glavin flying our new drone. Thank you to Captain Meyer, Detective Kieland and all our patrol officers whose positive

engagement strengthens our relationship with the community we serve.

Pam Barrett, Shoreline's Special Events Coordinator, wanted to thank all of the officers who came out last night. Everyone loved the drone.

Who We Are - Sherry Sternhagen

As Crisis Responder with the Regional Crisis Response Agency, Sherry brings energy, experience, and extensive training—including a Masters of Social Work—to our department.

Sherry grew up on the Columbia River, where she first came to love the water, wildlife, and the outdoors. She enjoys spending her time with her favorite adventure buddy, her six-year-old daughter Alexia. Together they go fishing, paddle boarding, camping, and boating. While on a recent whale watching tour in Maui, Sherry discovered Alexia knew more about humpback whales than their naturalist guide.

This fall, Sherry will be taking scuba diving lessons and hopes to become a skilled spearfisher. She was a belly-dancer for several years and has been a yogi for nearly 20 years. A music lover, she has been to over a hundred live concerts, including eight Tool shows!
