

## WEEK IN REVIEW

PATROL CID ADMINISTRATION

Kelly Park, Chief

---

## Chief's Message

---

There were many people honored for amazing work accomplished at the KCSO Annual Awards. However, it was an absolute pleasure this week to see Ofr. Clayton Stultz awarded his Sheriff Star! We are so pleased to have Clayton back and healthy as ever!

At the KCSO quarterly draft, Cpt. Meyer and I were informed we are now down to 64 vacancies for commissioned personnel across KCSO. This does include everyone currently in training phase 1-4. I cannot thank our training officers enough for their continued work and dedication to leading our training

folks to success. Your hard work is shaping our future partners.

I would like to proudly announce that Det. Joe Monserud will no longer be in “TDA” status for Shoreline CIU. With the pending promotions of his partners we have officially lifted the “TDA” status to make him whole on the team. Congratulations, Joe!

Along with the promotional round effective June 8<sup>th</sup> for Sgt. Knight, Andrews and Blanchette, Shoreline will have some additional TDA movement. Det. Sgt. Rick Connelly has decided after 27 years with KCSO and the last 8+ dedicated to leading our CIU that he will be assisting Sound Transit in expanding and building the TRO Unit. Det. Sgt. Connelly has always been willing to step up with his wealth of knowledge, experience, and leadership when needed for the greater good of this department, and this is yet another example that ST is extremely grateful for. Det. Sgt. Scott Fitchett will be stepping into the very large shoes of Det. Sgt. Connelly TDA for CIU. He will be retaining the administrative duties currently assigned as well... a large ask in absence of our second Captain vacancy. We anticipate filling that second Captain’s position once the promotional list is posted... likely early July.

This is an exciting time of transition and we appreciate the flexibility of everyone involved. Thank you all for your dedicated service.

- Chief Park

## Two Friendly Faces

---

It was a very welcome surprise to have K9 Deputy Jurado and Rain, his new Malinois partner, visit the precinct this morning. Rain was one of three K9 partners selected last week in Indiana. Formal KCSO explosive detection training begins next week. Rain was named after FEMA's acronym for explosive response: **Recognize, Avoid, Isolate and Notify.**

With Sound Transit's two Shoreline stations opening in just 4-months, we're hopeful K9 Deputies Jurado and Fenton will (again) make Shoreline their second home.

**Axon Rollout Shared on Facebook**

---

With some in our community maybe unaware of our rollout of body-worn cameras, Chief Park, with assistance from Deputy Finan, shared this quick video (see below) on Wednesday's Facebook page. As

always, our social media work is only possible thanks to CSO Corona's efforts.

Thank you all for your professionalism and patience with this project. No new technology is trouble-free, but Axon cameras has been among our most successful initiatives thanks to Patrol, ATU and many other stakeholders.

*- CSO Corona, Captain Tim Meyer*
