How to Determine the Slope of a Hillside

The slope is considered the vertical measure as it relates to the horizontal measure. For example if a slope has a rise of one foot over a four foot horizontal distance the slope would be 1:4 or a 25% slope.

(Check appropriate slope percentage box and mark correct box on diagram below.)

September 3, 2024

Dear Friends and Neighbors,

Shoreline Free Methodist Church has been called to help those among us who have fallen on hard times and this has led us to host tent encampments for the unhoused. We done this seven times now over the past couple decades. We have been asked again to host Camp United We Stand from October 1, 2024 to January 31, 2025.

This camp is limited to thirty-five people and many of the residents are employed and focused on getting housing. It is incorporated as a not-for-profit under Washington state laws. They operate with a set of by-laws and have a Board of Directors composed of camp residents and the greater community. The Board provides oversight to the camp, helps with fund raising and lends additional support where needed. (See their website: campunitedwestand-tentcity.org).

At **10:00 am on Saturday, September 14, 2024** we will hold a Zoom meeting to discuss plans to host Camp United We Stand. We invite you to attend to learn more about the camp and ask any questions regarding their stay with us. We will inform the City of Shoreline of any concerns brought forward at the meeting.

The link to the September 14 Zoom meeting is on our website (shorelinefm.com), but here is the link:
