

Chief's Message

Happy Friday Shoreline P.D.

This week we got some direction from the Sheriff concerning ITA orders from DCRs. I have heard there are still some concerns and questions. The bottom line is that the Command staff and I, including the Sheriff, will support you if you are following the GOM and policy. When it comes to these specific scenarios, I understand that serving these orders is delicate and takes a number of resources to accomplish. If that means we have to pull away until we can come up with a plan to safely administer these with the minimum amount of force, then so be it.

We have a number of resources throughout the Sheriff's Office that we can use to accomplish our mission. I am fully supportive of waiting until we have the right team in place before we serve these. If you still have questions, please talk to your Sergeants. Sergeants, if you have concerns, please talk to your Captains. If all else fails, my door is always open and I will be happy to have a conversation about this. Just remember, I am going to ask if you talked to your chain first.

Take care and be safe,

- Chief Tommy Collins

Coordinated Teamwork Leads to Burglary Suspect's Arrest

CIU and SET ran a burglary emphasis on Wednesday, specifically targeting a Shoreline burglar who Det. Durrant had PC for. Detectives Gedney, Monserud and Shoreline SET deployed to areas of Shoreline where our suspect is known to frequent. I'm happy to report that our team (CIU/SET) took our suspect into custody and recovered property stolen from the burglary. Detective Durrant was able to put this in motion because of the work Deputy Schettler and Deputy Oliver did while initially responding to their 911 calls. They collected crucial information and wrote very detailed case reports. Thanks to MPO Coblantz for the assist tonight and helping clean up the mess. This was great teamwork by everyone involved!
